

PUF Panel Mushroom Growing Chamber

Specification

Size: 80mm | 12*12*12 Feet
(Customization Available as per project Specs)

- * Country of Origin: Made in India
- * Dimensions: 12*12*12
- * Wall Thickness: 80mm PUF panels
- * Roof Thickness: 80mm (50+ 30)
- * Material: High-grade polyurethane foam
- * Durability: Resistant to diverse climates
- * Installation: Easy assembly and flexible placement

FEATURES

- * Exceptional Insulation Properties
- * Cost-effectiveness and Energy Efficiency
- * Durability and Resistance to Contaminants

Materials Used

- * High-quality PUF panels
- * Aluminium or PVC frames for structure (based on the requirement)
- * Sealants and waterproofing materials
- * Climate control systems (HVAC)
- * Hygrometers and thermometers for monitoring

Key Design Considerations

- * Temperature and Humidity
- * Light & Sound
- * Space Requirements
